

MODERN EJECTOR[®] TRUCKS & TRAILERS

DESIGNED & BUILT BY

An innovation in the traditional tipper market, available in 6X4 Truck, 8X4 Truck, 4 Axle Trailer, 5 Axle Trailer or Semi Configurations. Modern Ejector Technology[®] offers you innovation, flexibility and a new safe way of working.

The Roadmaster designed Hardox Ejector Bin[®] is suitable for spreading or bulk tipping & eliminates the risk of tipping roll overs. It also allows you to easily eject with overhead obstructions and spread on side angles or even while driving downhill.

C7H 8X4 MODERN EJECTOR TRUCK®

C7H 6X4 MODERN EJECTOR TRUCK®

An innovation in the traditional tipper market.

Available in 6X4, 8X4 or Semi configurations. The Modern Ejector truck offers you innovation, flexibility and a new safe way of working

Replace your standard tipper.

The Roadmaster designed Hardox Ejector Bin® is suitable for spreading or bulk tipping and has added compatibility with standard paving machines with some models. Electronic alarms for operator assistance add to the complete package.

3 AXLE MODERN SEMI EJECTOR®

- Electronic alarms for operator assistance when operating ejector
- Electric powered retractable tarp

Eliminate Rollovers & over head obstructions.

Eliminate health and safety concerns. Eject with overhead obstructions, and spread without the risk of tipping rollovers.

Safely spread on side angles & downhill slopes.

Increase your spreading capabilities. Ejector trucks & trailers allow you to spread on side angles without the risk of a tipping rollover. You can even spread while driving downhill - gravity is no issue for our specialised ejector technology©.

5 AXLE MODERN DOG EJECTOR©

4 AXLE MODERN DOG EJECTOR©

- 5 Double acting ejecting cylinders • Electronic alarms for operator assistance when operating ejector
- Electric powered retractable tarp

Features trailer controls & hitch.

Operate an ejector truck with a trailer attached. They come standard with trailer controls and hitch fitted - perfect for roading projects.
